BUILDING NOTES OF LOCAL INTEREST

The following building permits were issued by the building commissioners last night, the aggregate cost of the work to be done:

Hamington Arms and M. C. C., one story brick building, west side of Seaside avenue.

Rafaela Cennamo and wife, one story brick house, east side No. 46 North Washington avenue.

Karl Johanson, cellar wall to move from onto south side No. 135 Wheeler avenue.

The Dearing and Bottomley Co., addition to storage shed, north side of Randall avenue.

Robert Warwick, frame work shop east side of Logan street.

FROM DAKOTA TO BOSTON;
MISSUS WORLD'S SERIES

Clad in overalls and jumper purchased in the Dakota harvest fields for the purpose of riding freight in an attempt to see at least one of the world's series games in his home town, James Harrington of Boston, read the result of the final game in a police cell this morning. He was later released in the city court and fined \$2 for train riding. His companion, Andrew Reddy of Chicago, received three months.

NO STOMACH PAIN, GAS, INDIGESTION IN FIVE MINUTES

"Pape's Diapiesin" is the only real stomach regulator known.

"Really does" put bad stomachs in order—really does! overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that's just that—Pape's Diapiesin. It's the largest selling stomach regulator in the world. 12 what you eat ferments into stomach trouble. You belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment "Pape's Diapiesin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapiesin will give you a hundred dollar's worth of satisfaction or your druggist hands you your money back. It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach regulator in the world—Adv.

NEW FALL SHOES

Three essentials that Samuels' shoes are known for. Whether you pay us \$3.50 or \$8.00 you'll be sure of style, quality and satisfaction. All leathers. Stylish shapes.

DECISIVE ACTION ON AISNE LOOKED FOR ON ANNIVERSARY OF JENA TODAY

London, Oct. 14.—There is hope in London today that the anniversary of the battle of Jena, in which the French gained a victory over the Prussians and Saxons, just 100 years ago today, may be celebrated along both battle fronts by events marking this great and decisive struggle, but whatever the outcome, observers are permitted to receive only the briefest accounts of what is now transpiring in Belgium, France and Russian Poland. The latest French official communication declares there is nothing to report except a notable advance in the region of Berry-au-Bac. Petrograd gives out the cryptic statement that the Russian operations continue to develop along the Vistula and San rivers as far as Przemyśl and farther south as far as the Dniester. A great battle along this front may even now be underway and in any event it cannot be long postponed.

Vienna reports that the Austrian offensive continues successfully north and south of Przemyśl and that Javorin, important fortress taken by Russia several weeks ago, has been recaptured by the Austrians. A despatch received here from Nish, Serbia, relates that acting on the instructions of the German general staff, Austria has concentrated on the bank of the Drina, the greatest army yet sent against Serbia in a final and supreme effort to crush that country.

Human Notes

FROM FOREIGN Battlefields

Argentine Consul Killed.
London, Oct. 14.—The correspondent at Amsterdam of the Central News quotes the newspaper Het Volk to the effect that the Argentine Consul at Antwerp, M. Lemaire, was killed during the bombardment by a shell.

This missile struck the roof of the Consulate and penetrated through the ceiling to the cellar, where the Consul was sleeping.

Last Party Leaves Denmark.
Copenhagen, Oct. 14.—The steamer Frederik VIII. sailed today for New York taking the last party of Americans who have been stranded here. The vessel was crowded with passengers.

The American Consul General made it known today that if any more needy Americans desired to return the Standard Oil Company's steamer John D. Rockefeller would arrive shortly and the company had offered free transportation.

Troops Get Cholera Inoculation.
Amsterdam, Oct. 14.—According to the Frankfurter Zeitung, inoculation against the cholera is being carried out in the Austrian army on a large scale. One hundred and twenty thousand packages of cholera serum have been received from Vienna and whole regiments are being lined up for treatment. The men are being inoculated in surprisingly quick time.

Japs Kind to Prisoners.
Tokyo, Oct. 14.—Fifty-five German captives taken at Kiaochow arrived at Kurume, Japan, on October 9 and were lodged in a building prepared for them. Not only were special courtesies accorded to the three commissioned officers, but the food, cooked in European style, including bread and tea, was given to non-commissioned officers and privates. Clothing and bedding also were well furnished to the complete satisfaction of the captives.

Parcels and letters addressed to them are delivered free of postage.

Twenty-two on Trial.
London, Oct. 14.—A despatch from Sarajevo, Bosnia, to the Reuters Telegram company says that the indictment against Gavril Princip, the assassin of Archduke Francis Ferdinand and his wife, with twenty-one of his accomplices, has been read in Sarajevo. The men are charged with high treason.

Refugees in London.
London, Oct. 14.—Strange contrasts are presented by a large army of Belgian refugees in London, the numbers of which were increased today by trainloads arriving at Charing Cross and Victoria Stations.

Affluent Belgians from Antwerp, in many cases, are staying at pretentious hotels. They go sightseeing during the day, carrying guide books such as did American tourists a few weeks ago. They are to be seen at the theatres and popular restaurants.

Jockey Carter Killed.
Paris, Oct. 14.—The famous gentleman jockey, Alec Carter, a captain of French Dragoons, was killed at the head of his regiment in a recent encounter. He lay on the battlefield for two days.

Carter, originally English was a naturalized Frenchman. He rode long for W. K. Vanderbilt, August Belmont, Barney Schreiber and Mr. Duryea.

German Bullets Humane.
Paris, Oct. 14.—Dr. Richard Derby, with his wife, who was Ethel Roosevelt, had arrived in Paris, and at once began surgical work in the American hospital.

"The German bullet makes a clean, healthy wound which soon heals," said Dr. Derby, "but shrapnel causes frightful injuries. Even when recovery is possible, it is a long affair. I have been here only a few days, but I can say that the American people don't realize what a frightful business this war is and the blight in all Europe. The English people are even less alive to the enormity of the war than the Americans."

Warning From Altrman.
Paris, Oct. 14.—A German almanac flew over Rouen yesterday and dropped the following proclamation: "Frenchmen! You are being deceived! The Germans are victorious! Beware the perfidious English!"

George M. Willis, keeper of Point No Point Light Station, Maine, was commended by Secretary Redfield, for saving from drowning his assistant keeper and daughter.

AVIATORS BATTLE OVER KIAU-CHAU

Tokio, Oct. 14.—It was declared officially in Tokio today that the American consul at Tsingtau, W. B. Pack, and a number of German and Chinese women and children are to leave Tsingtau tomorrow. This move is in fulfillment of the arrangement recently concluded for the removal of all remaining non-combatants from the German position in Kiau-Chau.

An engagement between a German and a Japanese aeroplane took place over Tsingtau yesterday. Neither aviator was hurt. The German machine rose to a height of 9,000 feet and disappeared in the clouds.

BELFORT SIEGE IS GERMAN PLAN

London, Oct. 14.—A despatch to the Central News from Copenhagen says: "According to a Berlin despatch received here the Germans are preparing to lay siege upon Belfort with as large a force as possible. Almost the entire civil population has left the city."

Belfort is a fortress in France just across the Alsatian border opposite Muelhausen. In the Franco-Prussian war it withstood a siege for more than three months. The town has a population of about 26,000.

GENTLES ABSOLVED FROM BLAME FOR WIFE'S DEATH

Coroner John J. Phelan today handed down a finding of accidental death in the case of Mrs. Robert B. Gentles, wife of a member of the New York Produce Exchange, who was killed Tuesday noon when the car in which she and her husband were riding overturned on Great Plain hill, near Danbury.

In making his finding Coroner Phelan held that while the accident could have been avoided had the speed been less, eighteen miles an hour was not excessive. The woman's husband, Robert B. Gentles, was absolved from all blame. The couple were on the way to Danbury from their summer home in Sherman.

SHACKLETON'S BODY FOUND.

After several hours' search, the body of George Shackleton, 353 Carroll avenue, who was drowned yesterday afternoon, when a skiff was overturned, was recovered late yesterday afternoon by Arthur Metcalf, of 19 Webster avenue.

A party including Fred, a brother of the drowned boy, Ralph Lee, 287 Sixth street, Morris Deo, 584 Central avenue, were motor-boating.

In stepping from the boat to a skiff all the boys went into the water. The absence of George was not noticed until shore was reached. Members of the East End Yacht club were notified, and immediately began search for the body with grappling hooks. Medical Examiner S. M. Garlick gave permission to remove the body to the undertakers.

PIMPPLY? WELL, DON'T BE!

People Notice It—Drive Them Off With Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights. Cleanse the blood, the bowels and the liver with Olive Tablets.

Dr. Edwards' Olive Tablets are the successful substitute for calomel—there's never any sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cured with "a dark brown taste," a bad breath, a dull, restless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil, you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result.

Take one or two nightly for a week. See how much better you feel and how the blood and bowels clear.

The Olive Tablet Company, Columbus, O.—Adv.

GERMAN RETREAT AFTER FRONTIER BATTLE REPORTED

London, Oct. 14.—In a despatch dated Monday, the Daily Mail's correspondent in northern France says:

"The great German plan to hold the department of Flanders and deliver a crushing blow to the allies' left wing, has failed thus far. Yesterday and on Saturday our armies drove the enemy still farther back."

"The German army is extended from Turolo to Armentieres and was forced from its position last Tuesday, has met with heavy defeat and beaten back northward."

"The battle which has been raging at intervals near Arras blazed out again in that vicinity and once more we forced the Germans back to the east and north. The German losses are said to be heavy. One German loss has been to turn tail and to run away last Wednesday its columns were beating a heavy retreat back whence they came to join their supporters at Ypres."

"Ypres was occupied Wednesday afternoon by a moderate detachment of German cavalry and infantry, but if they have not yet evacuated it they must do so in the next few hours, as their position is untenable without very large reinforcements and these, if they exist, cannot reach them now."

AMERICAN CONSUL ASSISTS WOUNDED

London, Oct. 14.—Julius A. Van Hee, the American vice-consul at Ghent, before leaving that city for Brussels made repeated trips from his hotel to the railway station, carrying wounded Belgians in his motor car in order to enable them to go to Ostend, says the Daily Chronicle's Belgium correspondent.

Later Mr. Van Hee performed the same service for six badly wounded persons at the military hospital.

MRS. BUELL ASKS CENSORSHIP UPON NOVELS OF TODAY

Sharply Criticizes Women's
Dress in Connection with
W. C. T. U.

New Britain, Conn., Oct. 14.—Sharp criticism of present day modes in women's dress, of the modern novel which she declared badly needed censoring, and of what she describes as "the thought about the teaching of the young," was made today by Mrs. Caroline B. Buell, president of the Women's Christian Temperance Union of Connecticut, in her annual address at the second day's session of the annual state convention here. She said:

"We are glad to note that the sentiment is growing steadily against the foolish habit of smoking. The pleasure to many of reading an otherwise entertaining novel is badly marred by the constant smoking by the hero and other characters. The example therein set forth must be demoralizing to the young who more than any others are the readers of these stories."

"If there is anything today which needs censoring and needs it badly and immediately it is the novel and popular story with the ever-recurring references to the bad habits and loose morality of those characters which appeal to the young. Surely this whole matter lies in the hands of women and to them will the world look for a remedy; nor should they have to look for long. Women's societies could easily bring about a different state of affairs without causing a ripple in the popular mind."

"The world has been turned upside down in the last few years by the revolutions regarding the whole slave traffic and yet this is a result and not a cause. More than one cause has led up to this awful situation and not the least, I feel sure, is our lax thought about the teaching of the young in the home, upon the street, in school and even in the church."

"All this leads me to just a word about women's dress. Can anyone tell me why we make gypsies of ourselves—horse that in many instances? Is it becoming Christian women, mothers or daughters? I am hoping that our fashion makers across the seas are so busy with other thoughts and doings that this country can choose its own fashions and possibly strike a happy medium between the ultra and the commonplace, retaining the good features, for there are many such, namely, the larger waist; the comfortable, short and moderately scant skirt for where one recalls the fashions of a decade or more ago, the hour-glass waist and the over-full, heavy and voluminous skirt, one can see some good points among the many absurdities of the year's garments."

"But lest the men here present may feel like congratulating themselves, I shall call attention to the fact that while it probably is raining in London about every day, in this country it's fairly dry a great share of the time. But the real criticism upon our own dress is that it exposes the person unduly and teaches at least by suggestion lessons we are all better without. It seems a letting down of our standard, holding of things sacred to ourselves very lightly and very differently; something which might well be called a 'coming out' case and it is these contributing causes which are the little foxes that spoil the vines."

Mrs. Buell spoke urgently in favor of woman suffrage, commended Secretary Daniels of the navy department for his order abolishing intoxicants in the navy, commenting on what she describes as the more favorable attitude of the press towards a discussion of prohibition and asserted that "the list of newspapers and magazines which do not carry liquor advertising is each year growing longer and longer." Mrs. Buell then discussed the novel, smoking and women's dress. Continuing, she pointed out how the moving picture play, properly handled, might prove of great advantage to the union in its work.
